These element will help you to develop the mutual understanding between you and other peoples in the society so that you can have communication to the other people from the different societies. Political Variables: Political Variables are to evaluate or check out the political stability of a country where the government are evaluates the component factor of the political as well as the government stability. These factors are: ? Socioeconomic Conditions ? Investment Profile ? Internal Conflict ? External Conflict ? Corruption ? Military in Politics ? Bureaucracy If government are able to check out these factors then there is no crime in that society. And people of that society will be not be part of any crime or criminal organization. This means that the people of this society is follow the regulation and order according to the law. This will increase the respect to that person who has follow the regulation and order according to the law. I think that these variable can change the person's position into the betterment in the society. If the person doesn't know their rights and doesn't know how to improve their position, then it is impossible to him to live in that society. Because the society didn't accept that person who doesn't know their rights. If person know about their rights and know how to improve their position, then people of the society wouldn't hesitate to accept that person. So people should know how to improve their position in the society.
